## OBJECTIVE

---

To get an opportunity where I can make the best of my potential and contribute to the organization's growth.

## EDUCATION

---

### Graphic Era Hill University

B.Tech in Computer Science and Engineering, CGPA(8.09)

Sep 2020 - June 2024

Bhimtal, Uttarakhand

### Inter Mediate College Bazpur

Intermediate, UBSE (74.20%)

2020

Bazpur, Uttarakhand

## Experience

---

### Oasis InfoByte

Web Development Intern

Feb 2023

Online

- Learned Web Technologies in HTML, CSS, JavaScript, and React.
- During Internship I developed total three Projects.
- Developed user-friendly web interfaces. Utilized Git for version control and maintained organized documentation.

## PROJECTS

---

### Invoice Generator 📄 | JavaScript, React, IDE - VS Code

Jan 2024

- Developed an automated Invoice generator using React js and Bootstrap to generate bill automatically.
- In this many currency options to generate bill like INR, Dollar Bitcoin etc.
- Used jsPDF library to generate pdf and allow to download invoice in pdf form and also used many libraries like File saver, html2canvas etc.
- It also has a feature like tax and discount which automatically calculates all the calculations and gives the final price.

### Hotel Booking App 📄 | JavaScript, React, Express js, MongoDB

March 2024

- developed a full stack hotel booking application it allows users to browse, search, and book hotel accommodations. The application provides a user-friendly interface for customers, offering features such as hotel listing, room availability, reservation management.
- User Authentication: Implement secure user authentication for both customers and administrators using technologies like JWT (JSON Web Tokens) and bcrypt for password hashing.
- Search and Filter: Allowed users to search for hotels based on criteria like location, dates, price range.
- Room Reservation: Enabled users to select rooms based on their preferences and book them for specific dates.

### Recipe Recommendation Application 📄 | JavaScript, React, Tailwind, API

2023

- Developed a recipe recommendation website using React and JavaScript.
- It suggests a good recipe which the user wants.
- There is a search bar in which the user enters the recipe name and after that it suggests some recipes, then the user can see any one recipe.
- API has been used in this which provides videos related to the recipe so that it becomes easier for the user to understand the recipe.

## TECHNICAL SKILLS

---

**Languages:** C++, JavaScript, SQL

**Computer Science Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming (OOPs).

**Web development Technologies:** HTML, CSS, ReactJS, MongoDB, Node.js, Bootstrap, Tailwind

**Developer Tools And Version Control:** VS Code, Git, GitHub

## CERTIFICATIONS

---

- JavaScript - Great Learning
- Web Development and Designing - Great Learning
